

## ***CTPM Money Man – 10 Year Milestone***

Born in Chile amongst the rhythms and beats of South America, a family man who enjoys the simple pleasures in life, Juan Medina answered CTPM's cry for help back in May 2000.

Advertising for an Accountant / Financial Controller on Australia's number one job website SEEK, CTPM Australasia was looking for a hardworking, enthusiastic person who had the capability to learn new skills and to grow as an individual.

Possessing over 20 years of solid experience in accounting and a great work ethic, Juan ticked all of the boxes and ventured into his CTPM career. Soon to be known for his reliability and infectious laugh, his spot on the team was never in question.

10 years on, Juan has definitely established himself and has become a much needed asset to CTPM Australasia. Characterised by his attention to quality and detail in all of his work, Juan continually develops his skills and knowledge base to be on top of his game.

Not only does Juan handle the money side of the business, he expands his role into IT through the management and maintenance of all CTPM computer systems and equipment.

Juan has proven to be patient and persistent in his approach to achieving goals, responding to challenges in a cooperative manner, and wanting the "team" to win without the need of a perceived "shining star".

As one of the leading members of the CTPM team, Juan's quietly spoken, kind and friendly nature is well respected amongst staff. His professional approach and great knowledge is very much admired by all and often his problem solving ideas encourage staff to confide in him for support.

Over the years he has established great working relationships with his fellow peers and clients that he will keep forever. Even though he sends out all those invoices, the clients never seem to complain.

During our latest CTPM Navigator Development day, the Navigators expressed their appreciation of his work and always giving nature by presenting him with a gold plated 100 dollar bill (a perfect gift for a financial controller).

On behalf of CTPM Australasia we would like to thank Juan Medina for his loyalty, service and commitment and we look forward to the next 10 years.
